SUPPLEMENT TO
REPORT NO.

Note: The organizational structure described in this report applies to the headquarters of the Criminal Police in the five Länder (Kriminalpolizei bei der Landespolizeibehörde) of the Soviet Zone. The organization of the Criminal Police in the Länder of the Soviet Zone is still basically different from that of the Berlin East Sector Criminal Police, despite the reorganization of the Berlin East Sector Police, reported in MGB-8596, dated 1 June 1949. It should be noted that Section K-5 (Political Police) is not included in the organization structure of the Criminal Police on the Länder level. This confirms, by implication, previous reports according to which the Political Police was centrally directed from German Administration of the Interior Headquarters in Berlin-Wilhelmeruhe, and was not subject to control on the Länder level.

Organizational Plan of the Criminal Police at the Land Police Authority
